Ensuring Lifelong Care For Your Loved Ones

With a successful career and enjoying a wonderful life, you would certainly expect carefree living for yourself and your loved ones. But sometimes, things just don't work out the way you intend for it to. Hence, your intelligent planning can secure the future of you and your family.

HSBC Hui Ying Man Tang Whole Life Insurance (Participating), a whole life insurance plan, is an increasing whole life coverage by reversionary bonus and terminal bonus that helps you protect your family against the possibility that you may not always be there with them.

We recognize that insurance is as much about your feelings as guardian to your finances and possessions.

Benefits At A Glance

Comprehensive Protection for Whole Life Long

We offer Death and Total Permanent Disability protection for the whole life of the insured to take care of you and your family, so as to ensure you have a carefree life.

Increasing Protection by Annual Dividend Distribution

We offer policy dividends to allow you to share growth and business performance of HSBC Life for whole life long of the insured. The dividends of the policy are used to increase the payment of Death or Total Permanent Disability Benefit.

Notes: the policy dividend distribution is not guaranteed and could be ZERO for some policy years.

Application Process and Age

Simple Application Process

Step 1

Decide the basic sum assured you require based on the results of your financial needs analysis

Step 2

Choose the premium payment method that best suits your financial conditions, either single pay or annual pay

Step 3

Choose the premium payment period that best suits your needs

Entry Age

Premium Payment Period	Issue Age
Single payment	18 – 65
5–year period	18 – 60
10–year period	18 – 55
20–year period	18 – 45

Example

Example

Mr. Feng, at age 40, is taking management role in a foreign entity. As the key breadwinner of the family, he realises he should well prepare in advance to mitigate the impact on the family due to any event arisen by the risks he is facing to. Mr. Feng decided to purchase HSBC Hui Ying Man Tang Whole Life Insurance (Participating) for himself with a basic sum assured of RMB 5,000,000, and a 10-year payment period with annual premium of RMB 264,500 under standard premium rate.

Where Mr. Feng dies or is diagnosed with total permanent disability (TPD) at age 65, the death or TPD coverage will be basic sum assured being RMB 5,000,000 plus additional payment of death or TPD by accumulated reversionary bonus and terminal bonus being RMB 2,793,315/ 1,453,459/ 0 (assuming the high/medium/low level), total equals to RMB 7,793,315/ 6,453,459/ 5,000,000 (assuming the high/medium/low level).

Where Mr. Feng dies or is diagnosed with TPD at age 100, the death or TPD coverage will be basic sum assured being RMB 5,000,000 plus additional payment of death or TPD by accumulated reversionary bonus and terminal bonus being RMB 12,969,312/ 5,432,072/ 0 (assuming the high/medium/low level), total equals to RMB 17,969,312 / 10,432,072 / 5,000,000 (assuming the high/medium/low level).

Illustration example as follows:

Payment of Death/Total Permanent Disability Benefit

Notes:

- Each of the above ages refers to the first Policy Anniversary date after the insured has reached the Age.
- Dividend distribution is not certain and could be ZERO for some policy years. In above example, both accumulated reversionary bonus and terminal bonus are descriptive and shall not be interpreted as actual performance. The illustration is based on the company's actuarial and other assumptions, and represents neither the company's historical performance nor a forecast on the future investment return. Reversionary bonus will be paid in the form of additional payment of death benefit and additional payment of total permanent disability (TPD) benefit of the insured. Terminal bonus will be paid in a lump sum upon death or TPD of the insured after the first anniversary of the policy, or upon surrender of the policy after the fifth anniversary of the policy.**

In line with the above example, we also provide detailed benefit illustration table at a low, medium and high return level respectively.

Policy Year	Age	Prmeium of the Year	Guaranteed Benefits		Non-guaranteed Benefits										Payment of Death/Total Permanent Disability Benefit					
			Accumulated Premium	Death/Total Permanent Disability Benefit	Cash Value of Basic Sum Assured	Reversionary Bonus of the Year			Accumulated Reversionary Bonus			Terminal Bonus						Cash Value of Accumulated Reversionary Bonus

Note:

1. In the above Insurance Benefit Illustration:

- Only the benefits of the basic plan are illustrated, and all payable premiums are assumed to have been paid in full and on time by the policy owner.
- "Age" refers to the reached age of the insured at each policy year end.
- "Premium of the Year" and "Accumulated Premium" are both calculated on the basis of standard premium rate. The specific premium stated in the policy contract shall prevail over the premium in this proposal.**
- "Guaranteed Benefits" and "Non-guaranteed Benefits" listed in the table are the values at each policy year end.
- "Accumulated Reversionary Bonus" equals to the total sum of all the "Reversionary Bonus of the Year" payable in all passed policy years. **The distributed accumulated reversionary bonus will not be paid in advance unless the agreed payment condition is satisfied.**
- "Death/Total Permanent Disability Benefit" equals to basic sum assured.
- "Surrender Payment" includes the cash value of basic sum assured, cash value of accumulated reversionary bonus and terminal bonus (since the 5th Policy Anniversary Date).
- "Payment of Death/Total Permanent Disability Benefit" includes death/total permanent disability benefit, announced accumulated reversionary bonus and terminal bonus for death/TPD when the insured dies or is diagnosed with TPD.
- Only the benefits until the insured reaches 105 years old are illustrated. If the insured is alive after the age of 105, we will continue to take insurance liabilities.

2. The values of reversionary bonus and terminal bonus presented above are descriptive and may be different from actual performance. Such values are calculated based on actuarial results and other assumptions, and does not represent the company's historical performance nor a forecast on the future investment returns. The reversionary bonus and terminal bonus are not certain. Reversionary bonus will be paid in the form of additional payment of death benefit or additional payment of total permanent disability (TPD) benefit of the insured. Terminal bonus will be paid in a lump sum upon death or TPD of the insured after the first anniversary of the policy, or upon surrender of the policy after the fifth anniversary of the policy. Above listed benefits illustration under 3 levels of 'low', 'middle' and 'high' are made on the assumption that the dividend is sourced from investment gain and the distribution ratio of the surplus is 70% of the distributable profit. Actual dividend distribution of the Company might be more or less than the benefit illustration in the table and possibly equals to Zero in some policy years under the worst scenario.

Company Introduction

Headquartered in Shanghai, HSBC Life Insurance Company Limited offers a comprehensive range of insurance solutions to our customers covering protection, retirement, children's education, wealth growth and management and legacy planning.

HSBC life Insurance offers comprehensive and professional protection solutions and service to both individual and corporate customers.
